RE: Transport of M917A2 Military Dump Truck

Dear Town Council Members:

We have requested from the Federal Government and have been awarded a M917A2 Military Dump Truck in excellent condition (4800 miles). This vehicle will be immediately utilized to assist in hauling of material for the new Wash Bay/Police Impound Yard and the proposed athletic field / Emergency Evacuation, On Scene Command Post located on Foster Center Rd. The total cost to the Town will not exceed \$6000.00 for transportation from the DLA Distribution Center located in Barstow California. Transport will be provided by Rounders Logistics.

We are requesting the council make these funds available and strongly recommend obtaining this piece of equipment worth approximately \$200,000.00.

Sincerely,

Joseph Cardillo
Public Works Director

William Zyden
Chief of Police
