

## Stakeholder notification

### Town of Foster 2024 Hazard Mitigation and Floodplain Management Plan Draft Risk Assessment for Review and Comment

Dear Hazard Mitigation Planning Team and Project Stakeholders:

We are pleased to announce the availability of the Draft Risk Assessment for the Town of Foster's 2024 Hazard Mitigation and Floodplain Management Plan Update. The document can be viewed on the Town of Foster's website following this link:

[https://www.townoffoster.com/sites/g/files/vyhlf4421/f/news/2024\\_foster\\_ra\\_for\\_public\\_review\\_reduced\\_size\\_1.pdf](https://www.townoffoster.com/sites/g/files/vyhlf4421/f/news/2024_foster_ra_for_public_review_reduced_size_1.pdf)

This document represents the research and discussions with the planning teams; planning team input received during planning meetings; and comments received from the public based on community notification on social media and survey monkey surveys to identify the hazards that impact your jurisdiction; how they impact residents and infrastructure; as well as the number of people, residences, and critical facilities at risk.

We ask that you review the Draft Risk Assessment and provide comments to us via email ([laura.young@fairweather.com](mailto:laura.young@fairweather.com) or [Olivia.kavanaugh@fairweather.com](mailto:Olivia.kavanaugh@fairweather.com)) for us to incorporate your edits in the final document. We ask that comments are sent by May 17, 2024 to enable the team to respond and incorporate any changes into the document before the next steps.

We expect the Draft Hazard Mitigation and Floodplain Management Plan Update to be available shortly and will provide new email notification when it is available for review.

We appreciate your time and welcome your comments. We look forward to your response. If you have any questions or require additional information, please do not hesitate to contact me at [laura.young@fairweather.com](mailto:laura.young@fairweather.com) or via phone at 907-351-8676.
